EDUCATION

Sri Eshwar College of Engineering	B.E ECE	CGPA 6.6(upto 5 th sem)	2023 - 2027
Balakrishna Matric Higher Secondary School	HSC	77%	2021 - 2023
Balakrishna Matric Higher Secondary School	SSLC	PASS	2020 - 2021

INTERNSHIPS

Better Tomorrow - Training Institute | *MERN Stack Developer* | Janauary , 2025

- **About the Internship:** Worked on developing BookHive, a full-stack online book management platform that allows users to explore books, add reviews, and manage book listings.
- **What I Did:** Built responsive user interfaces using React, developed REST APIs with Node.js and Express.js, implemented user authentication, managed MongoDB database operations, and integrated Razorpay payment functionality.
- **What I Gained:** Strengthened skills in full-stack development, API integration, database management, and gained hands-on experience in building scalable MERN applications.

PROJECTS

BookHive | *Online Book Management & Review Platform* 2025

- **Addressed :** Managing and exploring books with reviews and secure user access in a single online platform.
- **What I did :** Implemented a full-stack MERN application with authentication, book listings, review system, REST APIs, responsive UI, and Razorpay payment integration.
- **Tech Stack :** React.js | Node.js | Express.js | MongoDB | REST API | Razorpay

Notes App | *Local CRUD-Based Note Management System* 2025

- **Addressed :** Need for a simple note-taking system without dependency on external databases.
- **What I did:** Created a lightweight notes application with full CRUD functionality using browser local storage and a clean interactive UI.
- **Tech Stack:** HTML | CSS | JavaScript

Picloopz Access Fix | *Login Flow Optimization Page* 2025

- **Addressed :** Users faced repeated login prompts when accessing the Picloopz website through Instagram links.
- **What I did :** Designed a simple HTML-based solution to streamline access flow and reduce repeated login attempts.
- **Tech Stack:** HTML | JavaScript | Tailwind CSS

Music Stream Box | *Music Streaming Web Application* 2026

- **Addressed :** Requirement for a responsive web-based music player that streams content from external sources.
- **What I did :** Built a responsive music streaming interface and integrated YouTube API to dynamically fetch and play music content.
- **Tech Stack:** HTML | Tailwind CSS | YouTube Data API v3

CERTIFICATIONS

- Data Structures & Algorithms - Problem Solving & Algorithm Design | Udemy 2024
- Mastering Java Programming - Object-Oriented Programming (OOP) & Core Java | Udemy 2024
- Basic Blender - 3D Modeling Fundamentals | Udemy 2025
- Switching, Routing, and Wireless Essentials | Cisco Networking Academy 2026

ACHIVEMENTS

Leetcode	Solved 50+ Problems
Skillrack	Solved 110+ Problems
Codechef	Solved 100+ Problems

SKILLS

Languages	Java JavaScript Python HTML CSS C
Web Technologies	React Tailwind CSS Node.js Express.js
Databases	MySQL MongoDB
Tools & Platforms	VS Code Git GitHub Figma
